

PARKING SYSTEM

Our parking system uses Ticket Dispenser at the entrance gate. The gate will open automatically after a visitor takes a parking ticket and it will automatically close when the car passes the gate. Meanwhile The Exit gate uses an operator to collect parking fee and activated barrier. Parking fee will automatically calculate by the system. The exit gate will automatically open after the operator receives the payment and automatically closed after the car passes it.

Pay-as-You-Park

PARKING MANAGEMENT SYSTEM

Welcome to the new pay-as-you-parking system! The fair parking calculation that allows visitors to pay just for the time they park.

It is specifically designed with future concepts, utilizing modern automatic parking equipment. It is a fast, efficient and elegant parking system.

ParkGuard is the parking management system that you can rely on.

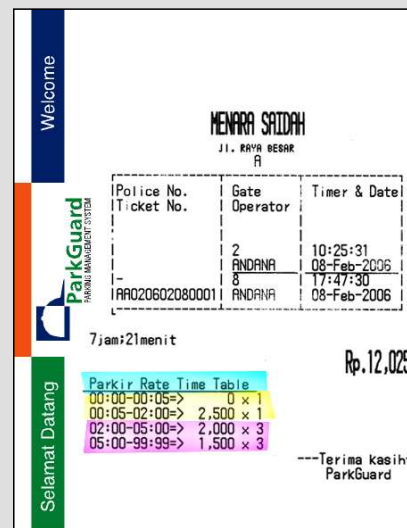

PARKING RATE

ParkGuard provides many parking rates that are easy and flexible to adjust to your requirements. The system provides 4 parking rates : General, VIP, Special Event and Membership.

GENERAL PARKING RATE

The General parking rate is an hourly parking rate calculation with an hourly parking rate table so it is easy to adjust the hour & rate any time if needed.

000 – 005 Minute	Free for loading/uploading
005 – 060 Minute	Rp. 2.000-
060 – 240 Minute	Rp. 1.500/hours
240 >	Rp. 1.000/hours

VIP PARKING RATE

The VIP parking rate allows visitors to book strategic VIP parking spots that are easy to reach. The system provides facility to maintain a VIP parking spot table which can automatically update the table each time a spot booked by visitor.

The VIP additional charges can be programmed to charge either a-one time additional fee or can use an alternate hourly parking rate.

SPECIAL EVENT RATE

A facility is available to activate a special rate for special events or occasions.

MEMBERSHIP

- SPECIAL MEMBERSHIP
A special membership parking rate facility is available to tract dedicated parking spots and to set a special rate for those members with dedicated spots.
- GENERAL MEMBERSHIP
A General Parking Membership facility tracks monthly parking without reserved spots.

PARKING EQUIPMENT

Parking Ticket Dispenser

A high speed Parking Ticket Dispenser will decrease queuing time by using only 2-3 seconds to serve each visitor.

Auto Barrier Gate

This package has a very safe automatic barrier system. The barrier opens & closes automatically. Complete with a photoelectric sensor that always checks that there is no car in front of it before closes the barrier.

Digital Camera

The digital camera will capture driver & car images as they enter and leave the parking area in this system to help deter car thefts by provide a security match photoset if a car missing.

Parking Sign

Clear parking signs will help visitors to moved around the parking area.

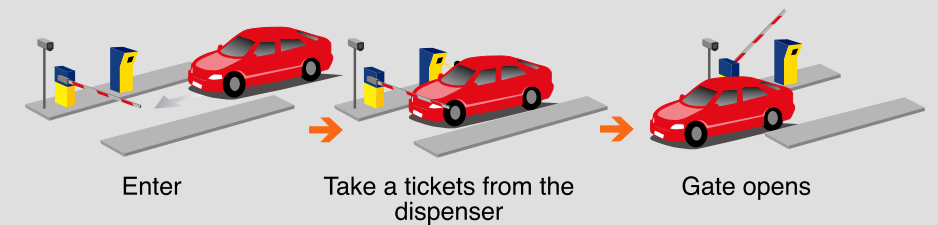

Counter Displays

A counter display inform the available parking spaces for each area. It will be very helpful for visitors to find where parking spot available.

COOPERATION AGREEMENT

We offer very flexible cooperation agreements that adaptable to your requirements. If you are interested and want a live demo please contact to our office.
